

BELGIUM-WALLONIA @INTERPACK 2023

Hall 10 – stand B20

04th-10th of May | Düsseldorf

Wallonia.be

Wallonia has an excellent logistics infrastructure and «multimodality» is the keyword. **Liege Airport** was awarded the title of **best cargo airport in the world** for the year 2020. You will also find yourself well supported : the actors of the sector are gathered in the «Logistics in Wallonia» cluster.

WALLONIA EXPORT & INVESTMENT AGENCY

The Wallonia Export & Investment Agency (AWEX) is the institution in charge of the development and management of Wallonia's domestic and international economic relations.

Through a personalized, innovative, and sustainable approach, AWEX supports Walloon companies - regardless of their size, sector, or target market - in every step of their international endeavors. This includes exports, technological partnerships, and development abroad.

The agency's vast network of connections ensures the best advisors are always by your side. Our local anchors and agents abroad are capable of providing unparalleled insight to take your company to the next level. In addition, our connections will help establish your business in the global marketplace and promote it throughout the world. Training, incentives, and international financing are also available.

AWEX is also committed to strengthening Wallonia's position as the premier gateway for international investors seeking success in the heart of Europe. We work closely with them to inform, convince, and advise in every stage of their development.

Feel free to get in touch with one of our local or international agents via our websites listed above.

In our network of more than 400 employees in nearly 100 countries around the world, there is always someone ready and willing to support you in your approach.

COMPANY BACKGROUND

FUTERRO S.A., is a well-established Belgian Company and was the first company working on the development of lactic acid and Poly-Lactic Acid (PLA) as early as 1992. Futerro's first industrial PLA plant allows the production of a wide range of RENEW PLA® for all existing applications with an annual capacity of 100 KT in Asia and the company is planning to implement a new production facility (75 KT) for 2026 in France.

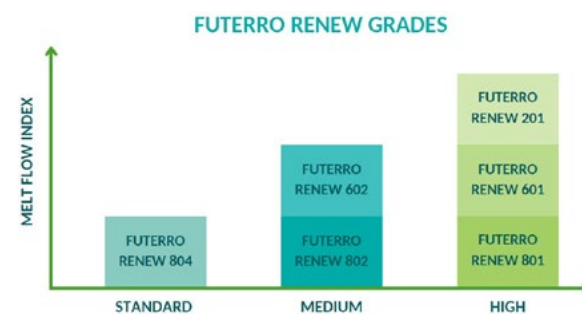

ADDED VALUE

PLA, or poly-lactic acid is a bio-based, compostable, and recyclable bioplastics. Futerro is today the only company able to manage the full life cycle of PLA, from the production of its monomer, Lactic Acid, its polymerization into RENEW PLA® and its chemical recycling using the patented technology LOOPLA®.

RANGE OF PRODUCTS

Futerro is manufacturing several grades of RENEW PLA® for all existing applications (thermoforming, Fibers, Film & Coating, Injection molding, 3D printing, extrusion, etc.).

COMPANY BACKGROUND

Labtech Engineering is a laboratory and pilot plant equipment manufacturer for polymer processing, mainly in extrusion machines, and well known throughout the world for its high-performance equipment and attractive quality/price correlation.

ADDED VALUE

Our design and manufacturing plant is running under Swedish management and is working together with our highly qualified and dedicated team of Managers, Engineers and Technicians. An important part of our organization is to provide best possible after sales service. We have a large stock of spare parts that we can ship on the same day we get the order so that they reach the customer in only a few days.

RANGE OF PRODUCTS

Labtech offers a whole range of single and twin-screw extruders with downstream equipment such as water bath and pelletizers, as well as two-roll mills, mixers, hydraulic platen presses from 20 to 80 tons, filter testers single and multi-layer blown film lines and cast film lines, high speed 3D filament lines and tube producing lines.

eric.winant@metalfuts.be

COMPANY BACKGROUND

MetalFuts is a family owned company with approximatively 40 workers and 10.000 m2 premises.

ADDED VALUE

We are specialized in the tailor-made metal packaging solutions for the transport and the packing of solid and pasty products, most of the time heavy, expensive and/or hazardous. We produce about 1 000 000 drums / year.

RANGE OF PRODUCTS

We offer tapered and cylindrical drums from 18L up to 150L. Their diameter varies from 305 mm up to 500 mm and their thickness varies from 0,4 mm to 0,9 mm. You may choose between several possibilities of inside/outside coatings. We are registered with BPI (IBE/BVI). And we can set up a certification process to lead your packaging to get its UN number needed for transportation of hazardous goods.

COMPANY BACKGROUND

With more than 60 years of experience, NO-NAIL BOXES is the Luxembourg manufacturer of collapsible plywood and steel boxes for industrial use. The company produce annually close to 450.000 boxes, of which almost 95% are made to measure.

ADDED VALUE

Shipped flat, NO-NAIL BOXES packaging ensures saved space during storage and a reduction of transportation costs. They are also light, user-friendly, manageable for the operator and can be personalized thanks to our different imprint techniques. Quality, protection of the environment and sustainable use of natural resources are integral parts of the NO-NAIL BOXES philosophy.

RANGE OF PRODUCTS

NO-NAIL BOXES produce reusable collapsible boxes which can carry up to 5 tons and can be adapted for the transport of bulk products. The single-use boxes are particularly suitable for export or storage. Three other types of DG collapsible wooden boxes have been designed and approved for the transport of dangerous goods.

MAIN REFERENCES

Our main customers in Europe are AIRBUS, Schneider Electric, Alcatel, Alstom, Safran, etc.
